COMPANY PROFILE

Enterprise Control Systems (ECS) specialises in VIP Protection/ security equipment design and manufacture for worldwide government, intelligence, military services clients. In 2005 they asked Freetimers to upgrade their websites and corporate identity to reflect their growing status. With a sophisticated flash intro and full content management ability, and secure areas for clients to access worldwide, including UK forces working in Afghanistan and Iraq. The site achieved

all set goals which has led to a global SEO campaign that is significantly raising ECS' worldwide profile, as well as in the UK.

HOW HAS WORKING WITH FREETIMERS HELPED THE ENTERPRISE CONTROL SYSTEMS BUSINESS?

- 91 Google No1s, 142 top 5, 174 top 10, 23 of most important 30 phrases in top 10
- provided full content management system and flash animation
- enterprisecontrol.co.uk operates in 5 international languages
- the 2007 ECS won the Queen's Award for Enterprise & Innovation

Today ECS is a valued client. We recently upgraded their website design, and Freetimers is working with them on a new worldwide online marketing campaign to facilitate their continued growth in major regional market places.
